

SOLOTECH™

Industrial Peristaltic Hose Pump

RELIABLE CHEMICAL METERING

The best option for municipal and in-plant
water treatment

MORE FLOW PER REVOLUTION

More efficient than conventional designs

INEXPENSIVE TO MAINTAIN

No seals or valves that plug

PUMPS ARE REVERSIBLE

Can be used to empty lines or clear blockages

SOLOTECH

**PRECISE CHEMICAL DELIVERY.
EVERY TIME.**

Reduce maintenance costs by using the SoloTech Peristaltic pump. The single roller design provides more flow per revolution than conventional designs, and only one host compression per revolution will help give you a long-lasting, reliable pump

HOSE BARB ASSEMBLY

Easy to install or remove without special tools

- Available with PVDF and SST barbs options
- Floating flange for easy installation

SINGLE ROLLER DESIGN

Improve your hose life

- Reduce the number of compressions, temperature and friction
- Metallic roller with bearings provides constant compression and flow

EXTEND YOUR HOSE LIFE

With only the hose in contact with fluid, the pump is both ideal for materials that other pumps cannot handle and is inexpensive to maintain. The durable hose design is built to perform millions of cycles without fail.

i10
10mm hose
0.013 – 0.645 gpm

i23
23mm hose
0.09 – 4.73 gpm

i26
26mm hose
0.23 – 10.20 gpm

i32
32mm hose
0.373 – 17.75 gpm
